INTERNATIONAL, NATIONAL, & COUNTY PUBLIC NOTICE

Due to some investigation into a group of people in the State of Virginia trying to create an assembly, it appears they are trying to use the social compact doctrine to secede from the original Union of 1781. The same act that was done here: The first state to officially secede from the Union was [South Carolina](#), on December 20, 1860.

This act of secession marked the beginning of a chain reaction, with other Southern states soon following suit and forming the Confederate States of America.

There is another woman that is a part of these actions that works for the Department of Defense, at the Pentagon, name withheld for now, is working with Heather Bingham to secede from the original Union. They are a bunch of Democrats, new age types trying to use the Law of Nations and the social compact to get away from Donald Trump. There are many witnesses to this act and a document with evidence written all in it.

No one with The United States of America nor with the reign of the heavens is in agreement with what these people in the State of Virginia are doing. They all have exiled themselves, they are all in rebellion, and that rebellion reaches Heaven. Many have observed the anti-Christ in all of the members, they hate and are at war with Yeshua/Jesus, they hate and are at war with the set apart spirit and most of all they hate and are at war with the Father. They come after the followers of the way, the truth and the life with acts of war, false accusations of fraud in an effort to raise themselves up on a mountain of lies. They had no problem stealing information and then changing it to fit their agenda. In that effort, they committed acts of Treason against the States of the Union. Basically they have joined with the globalists to break up the Union and bring in the New World Order, become gods and enjoy self worship.
