Hello you liar, do you want to accuse me to my face of fraud and I demand to know what particular kind of fraud you are accusing me of? State your claim here and now. I am coming to you privately as it is the duty to do so under scriptures.

4:45 PM

Hello Keith,

Naomi Spears advised me that my signature on the Resident Declaration Form has been applied as binding to a social compact without my knowledge or consent.

Please have your registrar cure the matter, by clarifying what is meant by this.

Without clarity, I am left to assume fraud by concealment of adhesion.

Hello Keith, Naomi Spears advised me that my signature on the ...
The cure is very easy here. All I need is for the registrar to respond to my email to let me know that my signature has only been applied as attestation to the facts captured within the 4 corners of the Resident Declaration Form.

If she can't retract her initial statement then I have an admission of fraud from her, with you as a named accomplice.

Please just have your registrar cure the matter so we can all move on peaceably.

Without any further clarity, I have to take Naomi's words at face value, which is admission of fraud.

Your own determination is not law and it does not mean its the truth. Your signature has been returned to you by the General Post Office. This means you do not have a social compact nor a resident declaration. Your claim is back where it was as if nothing has happened. We have been doing the same thing for years and there is no fraud in it. Naomi is sending an email that reflects the same. Congrats, you are back to US citizen.

6:48 PM

I am not a U.S. citizen. My citizenship is held in lawful trust.

I still require clarity from your registrar's office as to whether or not your registrar has engaged in an act of fraud against me.

I don't want to have Ms. Spears charged with a felony, but I will if her statement to me isn't officially redacted. She is leaving me very little choice in the matter.

She sent an email to you, go check your email...

No one committed any fraud against you, Naomi did not commit any fraud against you. Get off of your throne. You are in no position to judge anyone. It is funny that you have some balls to come after people that could have really helped you, yet you have no balls to go after your real enemy. You have no authority to charge anyone with a felony. In your system only prosecutors can charge persons with felonies. You have zero authority to threaten anyone. SO you have threatened, falsely accused people. You have also made yourself an enemy of the United States by declaring residency with The United States of America. You accused them of trafficking in persons and you accused the only government in the world that was witnessing for you, with fraud, the only witness you had in existence to back your claim of trafficking in persons against the United States.

7:42 PM

You are in the United States for the rest of your life. Your fraud remedy has been spent against the United States. Your person is off shore, not in any trust within the States of the Union.

7:44 PM

So what exactly are you saying I signed then? I never agreed to any of what you say.

8:12 PM ✓

And did you just advise me above that I have been released from a social compact?

8:15 PM ✓

And you aren't the Vicar of our republic. I don't need your approval or permission to exercise my natural rights.

I haven't accused the United States of anything. I've accused you of conspiracy to commit and conceal fraud. And you nor anyone else within your organization(s) have been willing to rebut my claim with a simple statement of truth.

I'm done begging for transparency.

We'll see if a magistrate agrees with your position. I'll see you in court Mr. Livingway.

10:05 PM

Your claim is rebutted and has been rebutted many times in the last 12 hours. The issue is here is that no one cares what a man says when he does not read anything and signs it. You have not read a thing, You have no knowledge of what we do. You did accuse the United States of trafficking in persons but you never read anything to know that fact. You claimed your person offshore and you never read anything to know that fact. When you claimed your person a accusation of fraud against the United States came from you. There are many witnesses to what I am saying here. Naomi told you something that was not true, she is new and no, you never signed a social compact. That is done separately. You only signed a resident declaration. You are a paranoid and with your vast knowledge of commercial law, you litigated your way out of freedom. We will tell any magistrate the truth of what you did against the United States. We are a separate country, not a guru group like AVR. We just don't flaunt it to anyone.

10:15 PM

You are teaching Sui Juris, I did that back in the 90's. No man is sovereign nor a group of people. Bring on whatever you got, you have a lot to learn.

10:23 PM

BY the way, how did you get a PMA?

10:24 PM

I am still laughing, I was the one that brought Sui Juris to the lime light over 20 years ago.

10:26 PM

I brought sui juris forward with the cancelatura of foreign instruments but you have never heard of that instrument.

Hi Jason,

As a follow up, when you sign a resident declaration, you are not part of any social compact. You were given incorrect information and I apologize. This should conclude our business from this day forward.

Kind Regards,

Naomi Spears,
office of the registrar for
the Government of The United States of America

I am very clearly and very publicly a friend to the US. I will invite you to bring any evidence that says otherwise forward.

Thank your conceding that I have not signed any compact.

I assert that I have only (regrettably) provided attestation to my true name and physical location and have agreed to nothing outside of the 4 corners of the Resident Declaration Form that your registrar sent receipt

Naomi really needs to say that to me in writing. Like, really really. Think very carefully about this.

I have never claimed or agreed or believed to be becoming an enemy to the US. I am a declared friend to the U.S.
